### DESCRIPTION

Recent public technological advances have and will continue to intersect the legal industry and affect litigation. This CLE will address the application of AI as a legal industry tool that can help facilitate efficiencies by automating tasks and be a useful tool in analyzing patterns and making comparisons as part of trial prep. Specific goals of this CLE course include educating the legal industry on what AI is and the benefits and challenges it encompasses, along with bringing awareness to the proper and ethical use of AI in the legal industry. Join us for this CLE as we determine the best way to balance innovation and responsibility.
